Pope Benedict's *Caritas in Veritate* is a wonderful piece of work. It brings together into one powerful vision things that are too often separated into unconnected pieces.

At that deep place, spirituality, theology and right-here, right-now, social justice and ecology issues reveal themselves as inseparable divisions of one divine challenge.

Caritas in Veritate is spiritual reading as well as practical ethics. It is written by someone who knows that the powerful new patterns of economical globalization are capable of helping and capable of hurting every man, woman and child on the planet.

If Christians are living in the way God makes it possible for us to live, then love gives life and substance not only to personal and family relationships but also to professional, economic and political relationships.

Caritas in Veritate (Charity in Truth) is a vision of a new world order for our planet.

This program has been created by the Jesuit Forum for Social Faith and Justice for the Assembly of Catholic Bishops of Ontario.
